FOREWORD.

I have known the author as an exponent of truth in financial matters. I, now see him expounding truth on occult works, and his book :—"GANDHI'S PATH ON THE WHEEL OF FORTUNE," I have read with considerable interest.

The remarkable accuracy of evil events falling under the figure 8, not only in the life of Mahatma Gandhi, but also as shown by the author with innumerable examples in the Part IV and V, are amazing.

That, there is an evil occult significance to the figure 8, one cannot deny. In the examples numbered :—

5. Self-Sacrifice, the villagers had no idea, that the figure 8 was connected with death, but the secret hand of nature is seen, when $80 = 8 + 0 = 8$, wreaths were placed on the grave of the $17 = 1 + 7 = 8$, year old naval cadet who lost his life.
49. TRAGEDY AT PEER'S FUNERAL, shows the magnetic attraction of death to figure 8, here a horse conveying the remains of Lord Westbury, knocked down and killed an 8 year old boy.
53. TRIPLE MURDER AT SANTA CRUZ. The dead bodies were proved to have been found on expanded metal measuring, 8 feet square.
86. A sadhu according to his religious belief, tied a sum of Rs. 125/. — $1 + 2 + 5 = 8$, round his neck, and committed suicide by drowning in Kurukshetra Lake.

How very remarkable it all seems, and I am pleased to say that the book has been compiled in a masterly manner and the author has shown ingenious powers not only from astrological point of view, but also by methods of Katala of Numbers.

PREFACE.

“ I slept and I dreamt that life was beauty,
I woke and I found that life was duty ”.

I woke to a sense of duty on the morning of the 15th August 1901, the day on which, the overnight prediction by my father, about his own death, was fulfilled.

Ever since, I have tried to find a way to reach a truthful prediction, and have seen it demonstrated in many ways. A win dividend of over Rs. 3,600/-, on a selected horse out of 26 runners, made me convinced about commercial side of astrology.

The fact that a consultant of a horoscope, could learn with amazing precision, that the person whose horoscope was being inquired into had died a week ago. Also, one writing from a far away land, should confess : “ Your deliniation, regarding the 7½ years' Shani period, is wonderfully correct. Yesterday (9-5-29), was the day of the eclipse, and I had an attack of fainting last night about 10 p.m., but I do not feel as bad as dying, although the vitality is lower.”

Such and many other predictions proving true, leaves no room for any doubt in my mind, about the truth of astrology.

Many have enquired, if one could fight against destiny of life? To-day, after years of patient search after this query from the point of view of prayers, use of talismans, and wearing precious stones, my reply is in the negative.

Kabala of Numbers, is another science, which stands out for its own truth. For its test, I selected the figure 8, which spells, *death, destruction, and disasters*. And, it was whilst experimenting with this symbolic figure 8, for evil events, that I hit upon its malefic influence on the life of the Sage of Sabarmati, Mahatma Gandhi.

To enable my readers to judge for themselves, the amazing but remarkable consistency of this persecuting figure 8, at all times, I have given several instances in Chapter IV and V of this book, and I enumerate here an example that I have witnessed right through with silent reverence.

1. A, resided in a house bearing the number $683=6+8+3=17=8$.

2. The last cash memo for the purchase of clothes by A, bore the number $1151=1+1+5+1=8$.

3. A was born on 8th July 1887, the date bears the number 8.

4. A's radical mid-heaven was Taurus $17=1+7=8$.

5. A took to bed on 16th May 1931, and died on 1st June 1931, 17 days after the illness, $17=1+7=8$.

6. On 17th May 1931, A was removed to a Police Mental Hospital and in terms of the Kabala of Numbers $17.5.31=1+7+5+3+1=17=8$.

7. A's last birth date before his death fell on 8th July 1930, and counting the number of days from this date, to the 17th May 1931=314 days, which equals 8.

8. The Police cell in which A was confined, bore the number $44=4+4=8$.

9. At the time of his death, A was in his 44th year. $44=4+4=8$.

I now allow this book, which is a collection of a few articles contributed by me to the "Starlore", Edited by Mr. Alec Stuart, Bransgore, Hants, England, to go to the public, in the hope of it proving of some worth to all thinking minds.

1932, and others as December 6th, 1932.

India is ruled by the sign Capricornus, and the last passage of the planet Saturn through this sign included the year 1900, and in the "Law of Values" by Sepharial the following is noted :

GANDHI the Mahatma, Gandhi the Naked Fakir of India, Gandhi the Saint of Sabarmati, and Gandhi under various other names, is no other than Mahatma Gandhi, so well known, not only to the four continents of Europe, but also to the inhabitants in the wilds of Africa and the beautiful Island of Honolulu—"The Paradise of the Pacific." Such a famous personality needs no introduction to our readers.

I have recently learnt about "Satya Samhita," a well-known collection of horoscopes, detailed out in Tamil, by Satyacharia Ujjaini, a great yogi who lived under the rule of the famous Raja Vikramidas. It is said to contain natal charts in which the rising sign is divided into 300 parts, and it is claimed that with such minute calculations readings from Satya Samhita are infallible.

Mahatma Gandhi's chart, as depicted therein, reveals "that the native would be released from captivity on the planet Jupiter entering the sign Virgo." There is a slight discrepancy in dates, as given in the Hindu Ephemeris, for the planet Jupiter to enter the sign Virgo; some name the date as November 28th, 1932, and others as December 6th, 1932.

India is ruled by the sign Capricornus, and the last passage of the planet Saturn through this sign included the year 1900, and in the "Law of Values" by Sepharial the following is noted :

Capricornus, ruling India. The occult number for this planet being 8, by illustration I must prove that Saturn did guide the activities of Mahatma Gandhi, and on each occasion Mahatma Gandhi's movements responded to a *kalala* of 8. If I succeed, I shall feel happy to be in a position to have thrown some light on the truth of science of numbers derived from astrology.

Mahatma Gandhi was born on October 2nd, 1869. During the year 1930 there were only two dates involved that come under discussion; the one is March 12th, 1930, and the other May 5th, 1930. The first date relates to Mahatma Gandhi's march from the banks of the River Sabarmati, in Ahmedabad, to Dandi, a village in Gujarat; and the second date relates to the arrest of Mahatma Gandhi.

1. Counting the number of days from October 2nd, the birth-date of Mahatma Gandhi, to March 12th, the day of the march. I arrive at 161 days, which, when reduced to a digit figure is 8, answering to Saturn's number.

2. Counting the number of days from October 2nd to May 5th, the day of arrest, I arrive at 215 days, which resolves into 8.

3. It was reported that Mahatma Gandhi had 79 volunteers with him. This again brings the total up to the figure 87, and answers to the *kalala* number 8.

4. On reference to the Ephemeris for May 5th, 1930, I notice that it was the 8th day from the eclipse of the Sun of April 28th, 1930. This date, with the known rule of kabala for omitting the century figure, reads 28-4-30, and when reduced to a unit figure is 8. The Sun separating from the eclipse, and applying to an evil aspect of Moon, forming an angle of 90° , points to the square of the Moon to the Sun; and the day, as per Hindu Ephemeris, is described as Durga-Asbtami, meaning atham (*vide* my letter in STARLORE for August 1932)

5. Mahatma Gandhi celebrated his 62nd year in jail which answer again to 8.

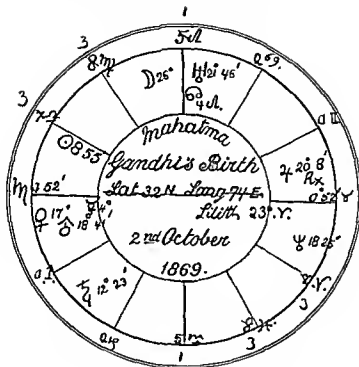

6. The majority of the planets at the birth of Mahatma Gandhi were posited in the sign Scorpio; this, being the 8th sign of the zodiac, is interesting to note.

7. Mahatma Gandhi was born on a Saturday, the symbol for which is 8.

8. Lastly, for the eighth time, one more observation I wish to lay before the reader. Referring back to the dates for the planet Jupiter to enter the sign Virgo, I note that the date $28-11-32 = 17-8$; and the discrepancy between the two dates, *viz.* the 28-11-32 and 6-12-32, results into a difference of 8.

A better illustration, at least to my mind, is hard to conceive.

With the passing out of Saturn from Capricornus,

A better illustration, at least to my mind, is hard to conceive.

With the passing out of Saturn from Capricornus, on November 19th, 1932, which again ends with the evil 8, *e. g.* $19-11-32=17=8$, I hope the evil influence will end once for all with a likelihood of improved signs for India, as well as Mahatma Gandhi, who has sacrificed all in all for the good cause of his Motherland.

MAHATMA GANDHI'S full name is Mohanlal Karamchand Gandhi. In India it is customary to name a child after a letter represented by the zodiacal sign held by the Moon at the time of birth. Mahatma

which the death-dealing forces not.

I select the three important dates for my present astrological deductions: October 2, 1869, Mahatma Gandhi's birth-date; March 12, 1930, Mahatma Gandhi's march from Ahmedabad to Dandi; May

MAHATMA GANDHI'S full name is Mohanlal Karamchand Gandhi. In India it is customary to name a child after a letter represented by the zodiacal sign held by the Moon at the time of birth. Mahatma Gandhi was born when the Moon was passing through the sign Leo, necessitating a selection to be made from the letters M or T, and the name selected was "Mohanlal."

The name Mohanlal, when dissected with the aid of valuations as set down by the mystic Pythagoras, who flourished about 582-500 B.C., resolves into a figure 8, as follows: (1) M=30; (2) O=50; (3) H=8; (4) A=1; (5) N=40; (6) L=20; (7) A=1; (8) L=20=170=8.

Mohanlal, with its 8 letters of the alphabet, as well as phonetically corresponding to the figure 8, seems doubly doomed under the thumb-screw of the planet Saturn—the planet of sorrow. A most fitting place in any horoscope for this name to occupy is the eighth house, which is the angle of decision through which the death-dealing forces act.

I select the three important dates for my present astrological deductions: October 2, 1869, Mahatma Gandhi's birth-date; March 12, 1930, Mahatma Gandhi's march from Ahmedabad to Dandi; May

5, 1930. Mahatma Gandhi's arrest. The planets for the three events are set as follows:

1. The squares and opposition aspects at birth are preponderate for working evil and are: Neptune square Uranus; Moon square Mars, Venus and Jupiter; Node square Mercury; Mars and Venus opposed Jupiter.

2. The evil aspects at the date of march are: Saturn square Uranus; Neptune opposed Mercury; Moon square Jupiter; Mars semi-square to Saturn and Uranus.

3. The evil aspects at the date of arrest are; Moon square Sun; Saturn square Uranus.

The march took place on Wednesday, March 12, 1930. On this day the Sun rose in the planetary

hour of Mercury, either to light or darken the path for Mahatma Gandhi on his march to launch civil disobedience against the authorities. At 5.51 a. m. the banks of the river Sabarmati were crowded with

and is in the sign Pisces, the sign of its fall, opposed from the sixth house by the planet Neptune retrograde, showing condition and faithfulness of those who serve.

Mahatma Gandhi and his volunteers, after their march from Sabarmati, carried on their activities

hour of Mercury, either to light or darken the path for Mahatma Gandhi on his march to launch civil disobedience against the authorities. At 5:51 a. m. the banks of the river Sabarmati were crowded with beaming humanity gazing towards the gates of the Gandhi Ashram. It was the hour, when Mahatma Gandhi with his small band of followers would march out. When the gates were opened, and the crowd caught sight of the much-revered saint of Sabarmati, the air was filled with human sounds giving expression to "Mahatma Gandhi Ki Jai," meaning "Success to their leader." Simultaneously, instead of the heavens responding "Amen," the silent response given to the concourse was "Sha-ye," meaning *destruction*. The Hindoo Ephemeris marked out that day as "Sha-ye," and the horary figure for the hour shows destruction.

The planet Mercury in the nativity of Mahatma Gandhi is squared by the Moon's Nodes. The horary figure for the march shows the planet Mercury occupying the twelfth house, ruling confinement, secret enemies and plots, sorrow and self-undoing, and is in the sign Pisces, the sign of its fall, opposed from the sixth house by the planet Neptune retrograde, showing condition and faithfulness of those who serve.

Mahatma Gandhi and his volunteers, after their march from Sabarmati, carried on their activities

vigorously at Dandi, a village in Gujrat. Mahatma Gandhi remained a free man up to 11:51 p.m. (local time) of Monday, May 5, 1930, when in the planetary hour of the sun he was arrested.

The orb of the Sun in the nativity of Mahatma Gandhi is in Libra 8:55, a sign of its fall and is posited in the twelfth house, free from any aspects from other planets. The traditional figure for the sign Libra is 8.

A most suitable description of the Sun in the twelfth house is given on page 150 of the *Message of the Stars*, by Max Handel, and reads:

"THE SUN IN THE 'TWELFTH HOUSE'".

"This is the signature of the lonely soul who as a recluse shuts himself off from his fellows. It brings with it a danger of conflict with the authorities, or an inability to fit in with the family conditions, and on account of the ensuing trouble the person goes into voluntary or enforced exile, living his life henceforth a stranger among strangers."

The horary figure for March 12, 1930, and May 5, 1930, turns out to be the most evil, and the transit of planets from both these figures on the nativity of Mahatma Gandhi is like a steam-roller crushing stones to powdered dust.

As I have already given the details of each planet for the three dates selected by me, I will not repeat

them, but simply point out the various malefic aspects. I, therefore, first take the planetary transits of March 12, 1930, and compare it with the radical chart of Mahatma Gandhi, and the following excerpt may prove of interest to the readers :

(1) Uranus opposes Sun radical; (2) Saturn squares Sun radical; (3) the Moon's Nodes squares the Moon's Nodes radical; (4) Jupiter is opposite to Sun progressed; (5) the Moon squares Venus and Mars radical

The planetary transits of May 5, 1930, are : (1) Sun is in mundane opposition to Venus and Mars radical; (2) Moon squares Venus and Mars radical (3) Uranus is in inmundane opposition and Saturn mundane square to the Sun radical; (4) Mercury opposes Mercury progressed; (5) Jupiter opposes Saturn progressed; (6) Mars opposes Sun radical.

The planetary transits of May 5, 1930, to the planets of March 12, 1930, are: (1) Sun squares Moon; (2) Jupiter opposes M.C., March 12, 1930; (3) Mars excites the square of Uranus to Saturn; (4) Venus squares Mercury; (5) Mercury squares Mercury.

If any one were, after digesting these preponderating evil directions, to read *Studies in Pessimism* by Arthur Schopenhauer, no matter how optimistic the reader may be, I believe that he too for a moment

cannot escape a wave of pessimism to disturb his peace of mind.

The horary figure for March 12, 1930, throws further light to support the following astrological deductions. The square aspect of Saturn to Uranus, and Mars holding the mid-point, appeals to me most forcibly. This configuration points to strikes, violence, assassination, anarchy, turbulence of the peaceful conditions of the country. The planet Mars inciting the square of Uranus and Saturn, and Saturn occupying the ruling sign of India, gave greater force to the evil directions, and India had to suffer much.

Mahatma Gandhi saw the light of the day some twelve years after the Indian Mutiny of 1857, and the following genealogical tree may prove of interest.

Indian Mutiny 1857 = 21 = 3.

3

1860 = 15 = 6.

Mahatma Gandhi was born.

Mahatma Gandhi's nativity does not hold a single planet in Capricorn, the ruling sign of India,

and the majority of planets are in fiery and watery triplicities and the part of fortune squared by Saturn.

and the majority of planets are in fiery and watery triplicities and the part of fortune squared by Saturn.

It is most remarkable to note that the Moon at birth of Mahatma Gandhi, passing through the sign Leo, holds that sign on March 12, 1930, and May 5, 1930.

The Moon at birth was in conjunction to the fixed star "Algenubi," influence of the nature of Saturn and Mars and has been called "He who rends." The Moon on March 12, and May 5, 1930, was in conjunction to the fixed star "Acubens," of the nature of Saturn and Mercury. It has been called "The sheltering or hiding-place."

The planet's relation to the fixed stars has been culled from *The Fixed Stars and Constellations in Astrology* by Vivian E. Robson.

Looking to the various evil directions as above, the watery element extinguishing fire, and the part of fortune so badly aspected by Saturn, the planet of sorrow, success for Mahatma Gandhi is shrouded with gloom.

P. Powley has rightly said: "A man without astrology is like a ship in a fog: he has to sail by guess or drop his anchor and refuse to sail at all."

I HAVE already traced Mahatma Gandhi's path up to May 5th, 1930, the date on which he was jailed. Mahatma Gandhi was ordered to be released on January 26th, 1931, to attend the Round Table Conference in London; on this date he had completed

Sagittarius 18-25.

4. Eclipse of the Moon on Saturday, September 26th, which took place in Aries 2-46, and eclipsed the progressed Mars in Capricornus 2!.

I HAVE already traced Mahatma Gandhi's path up to May 5th, 1930, the date on which he was jailed. Mahatma Gandhi was ordered to be released on January 26th, 1931, to attend the Round Table Conference in London; on this date he had completed 116 days of his 62nd birth-date. The date 26th, the days 116, and the 62nd year, all point to the planet Saturn and the sinister figure 8.

During the year 1931, Mahatma Gandhi had to face the attack from five eclipses, and they were:—

1. Eclipse of the Moon on Monday, April 2nd, which took place in the sign Libra 12, and eclipsed the Sun radical in the twelfth house.
2. Eclipse of the Sun on Saturday, April 18th, which took place in the sign Aries 26½, and eclipsed the progressed Venus in Capricornus 26.
3. Eclipse of the Sun on Saturday, September 12th, which took place in the sign Virgo 18, and eclipsed the progressed Saturn [in Sagittarius 18-25.
4. Eclipse of the Moon on Saturday, September 26th, which took place in Aries 2-46, and eclipsed the progressed Mars in Capricornus 21.

5. Eclipse of the Sun on Sunday, October 11th, which took place in Libra 17, and eclipsed the Neptune radical and excited the existing square of Neptune from the 6th to Uranus in the 9th.

The three out of the five eclipses fell on a Saturday, and the remaining two were in the zodiacal sign Libra. The symbol for Saturday, is 8. The symbol, for the sign Libra, is also 8. The eclipses affected the second, third, fourth, sixth, ninth, and the twelfth houses, and the planets affected were Uranus, Neptune, Mars, Saturn, Venus, and Sun, thus paralyzing the greater part of Mahatma Gandhi's birth-chart; and though he was released, his pathway was slowly leading to imprisonment.

Mahatma Gandhi, having completed his mission to the Round Table Conference, landed in Bombay on December 28th, 1931, the date responding to the figure 8. Mahatma Gandhi was re-arrested on January 4th, 1932, thus remaining a free man in Bombay for a period of 8 days

The British Government awarded 71 seats for the depressed classes; this figure points to 8. And Mahatma Gandhi commenced his memorable fast for the cause of untouchability, 8 years after his last fast.

There are sixty millions of fellow-Indians to whom the common rights of man are denied. They are the Dravidians, builders of the great temples of the south.

A reference to the chart of Mahatma Gandhi, shows the procrastinating, bombastic, prodigal, and lawless Jupiter, heavily afflicted by destructive and hot tempered Mars, the dissolute Venus, and the visionary, vacillating, and worrisome Moon.

Mahatma Gandhi, is thus not only straining his nerves against the heavily afflicted Jupiter, but is also working against set orthodox opinions, a few of which are quoted, as follows :—

The Bahgwata, treating of the murder of a Brahman, decrees : "Whoever is guilty of it will be condemned at his death to take the form of one of those insects who feed on filth ; being reborn long afterwards a "Pariah," he will belong to his cast and will be blind for more than four times as many years as there are hairs on the body of a cow. He can, nevertheless, expiate his crime by feeding 40,000 Brahmans."

A learned Brahman Pundit has said : "Untonohability is a necessity for man's growth. Man has magnetic powers about him. This 'Shakti' is like milk. It will be damaged by improper contacts."

Mr. Munmohandas Ramji, on January 5th, 1926, speaking as President of a meeting to protest against Mahatma Gandhi's heresy, in attacking

untouchability, explains that, "untouchability rests on a plane with the segregation of persons afflicted with contagious diseases. Hindus are prepared to sacrifice their lives for the Hindu religion, in order to preserve its ancient purity."

The inauguration of the National Congress in Bombay took place at midday on December 28th, 1885. This date resolves into the figure 28-12-85 = 26 = 8. Moreover, the day is "Atham" and co-operates with Mahatma Gandhi's destiny.

The planets ruling for 28-12-85 were: 1. Uranus, Libra 7.37. 2. Neptune, Taurus 23 R. 3. Mars, Virgo 20.52. 4. Jupiter, Libra 5.11. 5. Saturn, Cancer 4.45 R. 6. Venus, Aquarius 22.40. 7. Mercury, Sagittarius 19 R. 8. Sun, Capricornus 6. 9. Moon, Libra 4. 10. Moon's Node Virgo 20.

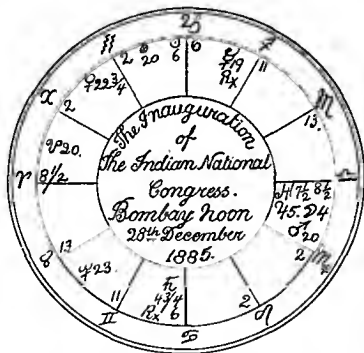

On this day the Sun is posited in the sign Capricornus 6, the ruling sign of India, and is heavily afflicted by the squares of Uranus, Jupiter, and Moon, and from opposition of the planet Saturn in its fall and retrograde. The planet Venus is squared by the planet Neptune, and the whole chart is adverse to the successful prosperity of the Congress.

Mahatma Gandhi's chart is wholly opposed to the Congress Chart, as follows:—

...and passes through contemplation and ends in self-sacrifice. This is too true in the life of Mahatma Gandhi.

Those of my readers who have taken pains to study the first part of this brochure in relation to

Mahatma Gandhi's chart is wholly opposed to the Congress Chart, as follows :—

We are told by the wise man to "Seek the way by retreating within" and also to "Seek the way by advancing bodily without." To the Saturn man the road passes through contemplation and ends in self-sacrifice. This is too true in the life of Mahatma Gandhi.

Those of my readers who have taken pains to study the first part of this brochure in relation to

Mahatma Gandhi and his affinity to Saturn, the planet of sorrow, and the figure 8, will now begin to realize the unseen hand pressed on Mahatma Gandhi's life and work.

“Ye stars, which are the poetry of heaven,
 If in your bright leaves we would read the fate
 Of men and empires—’tis to be forgiven
 That in our aspirations to be great
 Our destinies overleap their mortal state.
 And claim a kindred with you ; for ye are
 A beauty, and a mystery, and create
 In us such love and reverence from afar,
 That fortune, fame, power, life,
 Have named themselves a star.”

PART IV.

CORRELATION OF FIGURE 8, TO DISASTER,
DESTRUCTION AND DEATH.

In my preface, I have given an illustration of the figure 8, haunting the destinies of A, from various directions. In the first three parts of this book, I have shown how Mahatma Gandhi's work is thwarted by the figure 8; and my present aim is to lay before my readers various facts collected from the Press, especially the *Star*, and the *News of the World*, both published in London, showing how the figure 8 is connected with various happenings.

The factors involved in tracing disaster happening when the figure 8 stands out prominently as evidence are as follows :

1. The kabala of date of the event.
2. The kabala of age.
3. The kabala of numbers affixed to persons or vehicles.
4. The catastrophe taking place in the planetary hour of Saturn, or on the day of Atham, known as Moon square Sun.
5. Number of days from the birth date to the date of the disaster.

If your readers were now to take up and study the calamities as published in newspapers in the light of the view as expressed above, I feel positive that their efforts would result in a conviction that the figure 8 is always prominent in events of sadness and sorrow. I am now quoting several instances, and trust the perusing of same may interest your readers.
